EDUCATION

Amity University

Bachelor of Technology in Information Technology

Noida, Uttar Pradesh

2023 – 2027

PROJECTS

StudyAI – AI-Powered Study Platform | *React, Node.js, Express, Supabase, Groq API*

Jan 2026 – Present

- Built a full-stack AI platform with flashcards, exam simulation, and AI-based grading
- Designed REST APIs and handled backend logic with authentication and database integration
- Deployed using Vercel (frontend), Render (backend), and Supabase PostgreSQL
- Managed environment configuration, API keys, and backend deployment settings securely

MindfulYou – Mental Health Web App | *Flask, Python, PostgreSQL, Groq API, OpenCV*

May 2025 – Present

- Developed a mental health platform with AI chatbot, tracking, and journaling features
- Built backend workflows for user data, reports, and API integration
- Implemented real-time emotion detection using computer vision libraries
- Handled data processing, API responses, and backend logic for multiple integrated modules

Smart AI Task Scheduler | *React, Flask, Python, PostgreSQL, Groq API*

Jul 2025 – Aug 2025

- Built a web app for AI-based task prioritization and scheduling
- Developed backend logic for deadlines, categories, and task optimization
- Integrated AI API to generate task recommendations
- Designed structured data handling and improved task scheduling efficiency

TECHNICAL SKILLS

Cloud & Deployment: Vercel, Render, Supabase, Environment Variables

Currently Learning: AWS Fundamentals, Linux Commands, Networking Basics, CI/CD Concepts

Backend: Node.js, Express, Flask, REST APIs, JSON

Databases: PostgreSQL, MySQL, SQLite

Programming: Python, JavaScript, C, C++, Java

Tools: Git/GitHub, VS Code, Jupyter Notebook, Postman

CERTIFICATIONS

Fundamentals of Deep Learning – NVIDIA

Feb 2026
